ABSTRACT

This booklet explains how the ERIC (Educational Resources Information Center) and ECER (Exceptional Child Education Resources) databases can be used to find information about the education of individuals who have disabilities or who are gifted. The guide describes ERIC as a federally funded information system with a database of over 400,000 journal annotations and 300,000 education-related document abstracts. It discusses the clearinghouses that comprise ERIC and outlines how ERIC can be accessed, how to search ERIC manually or by computer, how to locate subject descriptors for search topics and apply Boolean logic to a search, and where to get copies of materials found in ERIC. ECER is then described as a database of citations and abstracts of English-language print and nonprint materials dealing with education and development of people of all ages with disabilities or giftedness. ECER's content is distinguished from ERIC's and search procedures are outlined. The two final chapters discuss services of ERIC clearinghouses and procedures for contributing documents to the ERIC database. Appendixes provid an ERIC search worksheet; ERIC descriptors for disabilities and giftedness; ERIC publication types; order forms for ERIC articles and documents; sample document resumes; guidelines for accessing ERIC through computer networks; and lists of organizations in the field of disabilities and giftedness, special education databases, ERIC clearinghouses, special education journals, online vendors, and 13 print resources. The Council for Exceptional Children

CEC: Leading the Way
The Council for Exceptional Children (CEC) is the largest professional organization internationally committed to improving educational outcomes for individuals with exceptionalities. CEC accomplishes its worldwide mission on behalf of educators and others working with children with exceptionalities by advocating for appropriate government policies; setting professional standards; providing continuing professional development; and assisting professionals to obtain conditions and resources necessary for effective professional practice.

CEC: The Unifying Force of a Diverse Field
The Council for Exceptional Children, a private nonprofit membership organization, was established in 1922. CEC is an active network of 59 State/Provincial Federations, 900 Chapters, 17 Specialized Divisions, and 275 Subdivisions with reach in over 40 countries.

The CEC Information Center:
International Resource for Topics in Special and Gifted Education
The Council for Exceptional Children is a major publisher of special education literature and produces a comprehensive catalog semiannually. Journals such as *TEACHING Exceptional Children* (published quarterly) and *Exceptional Children* (published 6 times per year) reach over 100,000 readers and provide a wealth of information on the latest teaching strategies, research, resources, and special education news.

To help those in the field respond to their ever-increasing need for information, CEC is proud to release the second edition of *How to Find Answers to Your Special Education Questions.*

Preface

WHAT YOU CAN LEARN FROM THIS BOOKLET

The main purpose of this booklet is to explain how you can use the ERIC and ECER databases to find information about the education of children and youth who have disabilities or who are gifted.

The ERIC and ECER databases can help you find answers to a wide variety of education questions such as the following:

- How can computers be used to improve the writing skills of students with learning disabilities?
- How can a program be developed to link mentors with students who are gifted?
- What curriculum guides have been developed for teaching mathematics to elementary school students who have mild disabilities?
- What research has been done on the effects of peer tutoring with students who have severe disabilities?
- Are there models for cooperation between regular class teachers and special education teachers in elementary schools?
- How can parent participation be increased in early intervention programs for children with disabilities?

Every day, teachers, administrators, parents, college faculty, researchers, students, librarians, media specialists, and others have information needs related to children and adults who are gifted and/or have disabilities. Some need only a minimal amount of information, while others need extensive searches of the literature on a topic.

This guide has been developed to help them, and you, find more of these answers effectively and efficiently. All it takes is knowing a little more about what resources exist and how to use them.

Acknowledgments

The authors of the final version of this document would like to acknowledge the contributions of Judy Barokas and Dianna Pinkerton, who developed the first version, which was introduced at the 1992 annual convention of The Council for Exceptional Children.

Many thanks are also due the individuals listed below, whose input helped to make this booklet more user friendly and comprehensive.

What Is ERIC?

Briefly:

- ERIC is the acronym for Educational Resources Information Center.
- ERIC is a federally funded information system.
- ERIC is a database of over 400,000 journal annotations and 300,000 education-related document abstracts.
- ERIC is a source of publications about all aspects of education.

More About ERIC

The Educational Resources Information Center (ERIC) is a nationwide information network designed to provide users with ready access to education literature. Established in 1966 to make materials concerning educational research and practice available from a single source, ERIC collects, analyzes, and distributes literature developed by local, state, federal, and international agencies, as well as by private sources.

The ERIC system, funded by the U.S. Department of Education, Office of Educational Research and Improvement, consists of 16 Clearinghouses, 4 adjunct Clearinghouses, and 4 support components. The 16 Clearinghouses collect and produce information on the following educational topics:

Adult, career, and vocational education.

Assessment and evaluation.

Community colleges.

Counseling and student services.

Disabilities and gifted education.

Educational management.

Elementary and early childhood education.

Higher education.

Information and technology.

Languages and linguistics.

Reading, English, and communication.

Rural education and small schools.

Science, mathematics, and environmental education.

Social studies/social science education.

Teaching and teacher education.

Urban education.

At the heart of ERIC is the largest education database in the world containing more than 735,000 bibliographic records of documents and journal articles. Approximately 2,600 records are added monthly. Papers, curriculum and teaching guides, conference proceedings, literature reviews, and curriculum materials, along with articles from nearly 800 education-related journals, are indexed and abstracted for entry into the ERIC database.

> ***Please Note:***
> Although the ERIC system consists of many Clearinghouses and other network components at various locations around the United States, it is important to remember that there is only one ERIC database. Whether you access ERIC through a public library, college library, or other information center, you are searching the same database of education information.

ERIC and Special Education

Currently, over 60,000 documents and journal articles in ERIC relate to the education of children and youth with exceptionalities. Most of these are processed by the ERIC Clearinghouse on Disabilities and Gifted Education, which is responsible for covering all types of exceptionalities, including the following:

Giftedness.

Talent (artistic giftedness).

Creativity.

Physical disabilities.

Hearing and visual impairments.

Mental retardation/developmental disabilities.

Learning disabilities.

Behavior disorders/emotional disturbances.

Mental disorders.

Autism.

Speech and communication disorders.

Chronic illnesses.

Special health problems (e.g., eating disorders, cancer, AIDS).

Child abuse and neglect.

Children "at risk" due to disabilities, physical or psychological problems, minority/ethnic status, or family or environmental factors.

2

Where Can You Find ERIC?

ERIC INFORMATION SERVICE PROVIDERS

You can access ERIC in person, by mail, or by telephone at nearly 3,000 locations around the world, including

- University and college libraries.
- Local educational resource centers.
- Public libraries.
- ERIC Clearinghouses.

ERIC collections and materials are found in every state and in more than 60 countries. There are over 1,000 locations designated as ERIC information service providers. At these locations you can do one or more of the following:

- Use the ERIC print indexes.
- Access ERIC documents on microfiche.
- Run computer searches of the ERIC database.

> For quick reference on where to access the ERIC database, call:
> ACCESS ERIC at 1-800-LET-ERIC (1-800-538-3742)

Even if there is not an ERIC information source near you, you can order computer searches by phone or mail from ERIC Clearinghouses, many libraries, and other ERIC information service providers. You can order copies of ERIC documents from the ERIC Document Reproduction Service (EDRS).

MORE WAYS TO ACCESS ERIC

If you do a lot of research and have a need for frequent searches, you can search ERIC (and other databases) through your home or office computer. DIALOG and other database vendors such as SpecialNet offer low-cost searching access. In addition to your computer, you will need a modem, the corresponding telecommunications software, and a contract with one of the vendors. (See Appendix I for vendor addresses.)

The most recent advances in ERIC access are through a number of systems utilizing the Internet system, including the Colorado Alliance of Research Libraries (CARL), and the Syracuse University Information System (SUINFO). A full-text file of over 850 ERIC Digests is available to Internet users nationwide through the Extended Bulletin Board of the Office for Information Technology, University of North Carolina at Chapel Hill. Detailed instructions for accessing ERIC via these three networks are provided in Appendix M.

3

How Can You Use ERIC?

Briefly:

- You can conduct manual searches of the ERIC print indexes *RIE* and *CIJE*.
- You can conduct computer searches of the ERIC database.

MANUAL SEARCHING

ERIC has three basic reference tools to help you locate information in the database and enhance your research capabilities. The first two are monthly abstract journals, and the third is a thesaurus of controlled subject headings:

- *Resources in Education* (*RIE*)

  RIE is a monthly journal of abstracts of current education-related documents. *RIE* contains five types of indexes: subject, author, institution, publication type, and Clearinghouse/ED number.

- *Current Index to Journals in Education* (*CIJE*)

  CIJE is a monthly journal of abstracts of education-related articles from approximately 760 journals. *CIJE* has three indexes: author, subject, and journal contents.

- *Thesaurus of ERIC Descriptors*

  This is the master list of ERIC's nearly 10,000 subject headings used in indexing and searching.

Libraries that subscribe to *RIE* and *CIJE* should also have copies of the *Thesaurus of ERIC Descriptors*. Be sure to spend some time using the *Thesaurus* to

find the best subject descriptors before turning to the subject indexes of *RIE* and *CIJE*.

A manual search of the print indexes may meet your needs if you have a topic that can be summarized with one or two subject terms and if you only need a limited number of references on your topic. A manual search consists basically of looking up your subject terms in the subject index of *RIE* and *CIJE*. (Cumulative indexes are available as well as the indexes in each issue.) Under each term in the subject index, you will find a list of the most relevant titles plus their ED and EJ numbers. You can then use the ED and EJ numbers to find the abstracts in *RIE* and *CIJE*. (See Chapter 5 of this booklet for information on where to get copies of documents and articles cited in ERIC.) Manual searches require very little database "expertise," but they are not suited to in-depth searching or complex topics.

An example of an appropriate manual search is one in which a student needed a few references on the fairly specific topic REGULAR AND SPECIAL EDUCATION RELATIONSHIP, which is a subject descriptor in ERIC. The student did a manual search of *RIE* and *CIJE* (January-March 1992 issues) which took approximately 30 minutes and located 22 documents and journal articles.

COMPUTER SEARCHING

Many of the sites where you can access ERIC (see p. 3) offer computer searches of the ERIC database. The database contains all of the records in *RIE* and *CIJE* dating from the beginning of ERIC in 1966.

If your topic is fairly complex and/or you need a comprehensive search of the literature over a period of several years, a computer search can be much more effective and efficient than a manual search.

> *Please Note:*
> Procedures for searching the ERIC database vary with each of the major online vendors. Procedures also vary for searching ERIC on CD-ROM. If you have a professional searcher run your search, you do not need to learn specific search procedures. If you use a library where you can run your own search, written instructions for beginners should be available, as well as staff who can assist you.

What Will It Cost?

Fees for searches and printouts are determined by individual service providers. If you have a choice of several search services, ask about fees to help you make your decision, but do not decide on the basis of cost alone. Be sure to ask about other variables that may be important to you, such as turnaround time from

ordering to receiving a search, whether or not there are limits on the computer time or number of abstracts printed, and whether or not the search can be modified if the first results are not satisfactory.

Who Runs the Search?

At many libraries, you can run the search yourself. For the beginner, there are usually written search aids as well as help available from librarians. ERIC on CD-ROM is now available in most university libraries and research centers. The system's menu-driven approach makes the process painless.

If there is not a convenient location where you can search ERIC yourself, or if your topic is complex, you can have a professional (e.g., a librarian or information specialist) conduct the search for you. If possible, arrange to discuss your search topic directly with the searcher.

What Will I Get?

The result of the search will be an annotated bibliography of journal and document literature on your topic (see examples in Appendixes K and L). After you have received and screened your search, you can readily obtain the full text of most of the materials. ERIC is a document delivery database. Microfiche or paper copies of materials are available from many ERIC service providers or from the ERIC Document Reproduction Service (EDRS). Journal articles can be found in many libraries or reprints can be ordered from the UMI Article Clearinghouse. (See Chapter 5 for more information on locating copies of materials in ERIC.)

4

How to Search Your Special Education Topic in ERIC

The key to a good ERIC search is to do some advance planning following these steps:

Step 1 Write down your topic in your own words.

Step 2 Identify the different concepts in your search.

Step 3 Use the *Thesaurus of ERIC Descriptors* to locate the subject descriptors for each concept of your topic.

Step 4 Consider any additional limitations on your search.

Step 5 Run your search.

Step 6 Modify your search, if necessary.

SEARCH EXAMPLE A

You are writing a paper on how computers can be used to improve the writing skills of students with learning disabilities.

Step 1 Write down the topic in your own words.

"How have computers been used to improve the writing of students with learning disabilities?"

Step 2 Identify the different concepts in your topic.

CONCEPT 1	CONCEPT 2	CONCEPT 3
Learning Disabilities	Computers	Writing

Step 3 Use the *Thesaurus of ERIC Descriptors* to find subject descriptors for each concept of your topic.

CONCEPT 1	CONCEPT 2	CONCEPT 3
LEARNING DISABILITIES	COMPUTER ASSISTED INSTRUCTION	WRITING INSTRUCTION

Step 4 Consider any additional limitations on your search.

(These might include publication dates, types of publications, age of students, etc. None will be used in this example.)

Step 5 Run your search.

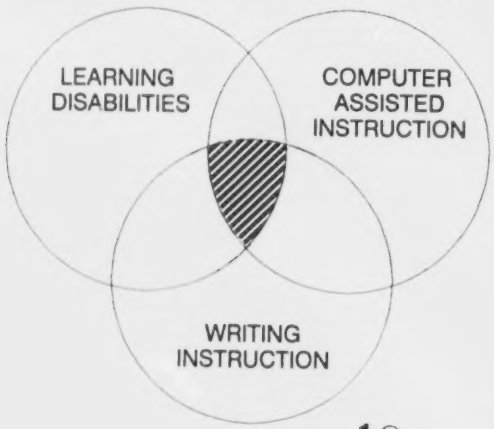
Following is a *brief* explanation of the logic that computers use in searching:

Computer searching is based mainly on Boolean logic. Three logical operators can be used to show the relationships among search terms: AND, OR, and NOT. In running a computer search, you specify the logical operators that will link your search terms in the way that will yield records relevant to your topic.

In this search, you are looking for records in ERIC that have *all three* of your search concepts:

LEARNING DISABILITIES **AND** COMPUTER ASSISTED INSTRUCTION **AND** WRITING INSTRUCTION

A Boolean diagram of your search might look like this:



The shaded area represents records that are indexed under all three concepts and should therefore be on your topic. An ERIC search on these descriptors (covering the years 1980–1991) yielded the following results:

LEARNING DISABILITIES = 5,800 records

COMPUTER ASSISTED INSTRUCTION = 9,259 records

WRITING INSTRUCTION = 8,133 records

LEARNING DISABILITIES **AND** COMPUTER ASSISTED INSTRUCTION **AND** WRITING INSTRUCTION = 19 records

Here are some sample records from this search:*

ED 327 037 EC 232 689

A Model Teaching Environment for Using Word Processors with LD Children. The Writing Project. Technical Report No. 2.
Neuman, Susan B.; And Others
Education Development Center, Inc., Newton, Mass. Oct 1985

Available From: The Writing Project, Educational Development Center, 55 Chapel St., Newton, MA 02160.
EDRS Price - MF01/PC02 Plus Postage.
Language: English
Document Type: EVALUATIVE REPORT (142)
Geographic Source: U.S.; Massachusetts
Journal Announcement: RIEMAY91
Target Audience: Practitioners

Presents first year (1984-85) findings of The Writing Project, a 2-year . . . study of the use of word processing to improve learning disabled children's writing skills. . . . focused in the first year on . . . observation of 14 fourth grade children as they wrote with word processors. Two contrasting teaching environments were identified: the compliance model . . . and . . . the facilitation model . . . Facilitative models . . . were found to have three overall characteristics: (1) teachers give children strategies for generating and organizing their own ideas; (2) teachers focus children's attention at the drafting stage on developing ideas in writing, rather than revising and editing, or on mastering the word processor; and (3) teachers reinforce children as capable thinkers and writers. (DB)

Descriptors: Computer Assisted Instruction; Computer Oriented Programs; Intermediate Grades; *Learning Disabilities; Models; Personal Autonomy; Program Effectiveness; Student Motivation; *Teacher Role; *Teaching Methods; *Word Processing; *Writing (Composition); ***Writing Instruction**

EJ 420 356 IR 522 530

Enabling Students with Learning Disabilities: Insights from Research. Anderson-Inman, Lynne
Computing Teacher, v18 n4 p26-29 Dec-Jan 1991
Report No: ISSN-0278-9175
Available From: UMI
Language: English
Document Type: JOURNAL ARTICLE (080); REVIEW LITERATURE (070); RESEARCH REPORT (143)
Journal Announcement: CIJMAY91

Describes four research projects that used technology to support reading and writing activities of students with learning disabilities: the first used computerized speech feedback to improve reading skills of elementary students; the second used projection plates in collaborative writing projects; the third used hypertext study guides with ninth graders; the fourth used videodiscs to structure learning experiences. (11 references) (LRW)

Descriptors: *Computer Assisted Instruction; Elementary Secondary Education; Hypermedia; *Learning Disabilities; Projection Equipment; *Reading Instruction; Speech Synthesizers; Study Guides; Videodisks; ***Writing Instruction**
Identifiers: Collaborative Writing

EJ 415 034 EC 231 698

Creating a Community of Writers: The Computers and Writing Instruction Project.
Schwartz, Shirley S.; MacArthur, Charles A.
Preventing School Failure, v34 n4 p9-13 Sum 1990
Report No: ISSN-1045-988X
Language: English
Document Type: JOURNAL ARTICLE (080); NON-CLASSROOM MATERIAL (055); PROJECT DESCRIPTION (141)
Journal Announcement: CIJFEB91
Target Audience: Practitioners

This paper provides an overview of the Computers and Writing Instruction Project, a field-tested curriculum for teaching writing to learning-disabled students consisting of a process approach, word processing, and strategy instruction. Its scope and sequence are described and guidelines for establishing a writer's workshop in the classroom offered. (PB)

Descriptors: Basic Writing; *Computer Assisted Instruction; Computer Uses in Education; Elementary Secondary Education; *Learning Disabilities; Word Processing; Writing (Composition); ***Writing Instruction;** *Writing Workshops

*For help in understanding RIE and CIJE records, see Appendixes K and L.

BEST COPY AVAILABLE

Step 6 Modify your search, if necessary.

Looking at the three sample records from this search, you will notice additional descriptors related to the concept of writing, such as WRITING (COMPOSITION), and WRITING WORKSHOPS. At this point, the search could be modified to include these descriptors—and perhaps others from the *Thesaurus of ERIC Descriptors*—resulting in an expanded list of "writing" terms:

WRITING INSTRUCTION

WRITING (COMPOSITION)

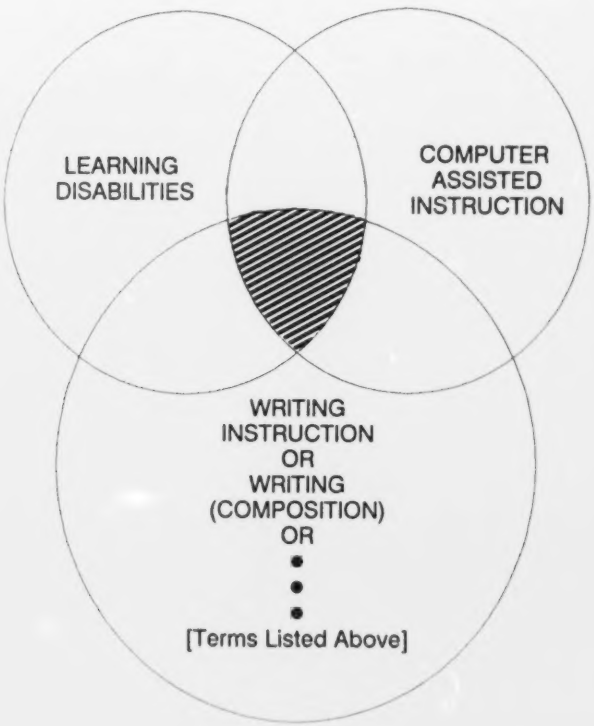
WRITING WORKSHOPS

BASIC WRITING

WRITING IMPROVEMENT

WRITING SKILLS

The Boolean operator OR is used in the search to combine all of the records in ERIC indexed under *any* of these descriptors, and your modified search strategy would look like this:



A modified search of ERIC (again 1980–1991) including the additional "writing" descriptors resulted in 38 records retrieved, including this one:

EJ 418 292 EC 232 049

Error Monitoring by Learning Handicapped Students Engaged in Collaborative Microcomputer-Based Writing.

Hine, Mary Sue; And Others

Journal of Special Education, v23 n4 p407-22 Win 1990

Report No: ISSN-0022-4699

Available From: UMI

Language: English

Document Type: JOURNAL ARTICLE (080); RESEARCH REPORT (143)

Journal Announcement: CIJAPR91

Target Audience: Practitioners

Eleven learning-handicapped students, ages 8-13, generated text at microcomputers both alone and as members of dyads. Examination of mechanical errors revealed a lower error rate in the dyad condition compared to working alone. The relationship between error monitoring and the social interaction needed for collaboration is discussed. (Author/JDD)

Descriptors: *Computer Assisted Instruction; *Cooperative Learning; Elementary Education; Error Patterns; Interaction; Interpersonal Communication; *Learning Disabilities; Microcomputers; *Peer Influence; Peer Relationship; Performance Factors; Social Behavior; Word Processing; ***Writing (Composition); Writing Skills**

Identifiers: Dyadic Interaction Analysis; *Dyads; *Self Monitoring

Following is an example of a Search Worksheet illustrating how you might plan a search strategy for Example A.

*For help in understanding RIE and CIJE records, see Appendixes K and L.

ADDITIONAL SEARCH TIPS

Identifiers

Identifiers are key words or "indexable" concepts intended to add depth to subject indexing that is not always possible with descriptors alone. Identifiers are not found in the *Thesaurus*, since they are generally proper names or concepts not yet represented by approved descriptors. In the resume sections of *RIE* and *CIJE* they appear in a separate field below the descriptors.

Identifiers are used to index geographic locations, personal names, test or program names, specific legislation, and so forth. Here are a few examples of identifiers that have been used in ERIC and are related to special education:

Adaptive Behavior Scales	Piaget (Jean)
Americans with Disabilities Act 1990	Disabled Infants Project
Attitudes Toward Disabled	Behavior Management
Disruptive Behavior	Enuresis
Fetal Alcohol Syndrome	Spinal Cord Injuries

Looking again at an abstract from Search Example A (p. 11), notice that the sample ERIC journal article EJ 420 356 includes the identifier Collaborative Writing:

EJ 420 356 IR 522 530

Enabling Students with Learning Disabilities: Insights from Research. Anderson-Inman, Lynne

Computing Teacher, v18 n4 p26-29 Dec-Jan 1991

Report No: ISSN-0278-9175

Available From: UMI

Language: English

Document Type: JOURNAL ARTICLE (080); REVIEW LITERATURE (070); RESEARCH REPORT (143)

Journal Announcement: CIJMAY91

Describes four research projects that used technology to support reading and writing activities of students with learning disabilities: the first used computerized speech feedback to improve reading skills of elementary students; the second used projection plates in collaborative writing projects; the third used hypertext study guides with ninth graders; the fourth used videodiscs to structure learning experiences. (11 references) (LRW)

Descriptors: *Computer Assisted Instruction; Elementary Secondary Education; Hypermedia; *Learning Disabilities; Projection Equipment; *Reading Instruction; Speech Synthesizers; Study Guides; Videodisks; *Writing Instruction

Identifiers: **Collaborative Writing**

*For help in understanding RIE and CIJE records, see Appendixes K and L.

Identifiers, like descriptors, can be used as searchable terms in your search strategy. If you find some appropriate identifiers after running your initial strategy, they can be added to modify and improve your search.

Publication Types

All ERIC documents are categorized by their form of publication (referred to as *Document Type, Publication Type,* or *PUBTYPE*), as well as by their subject. A special section of the document resume identifies the PUBTYPE by means of a three-digit code.

PUBTYPEs are assigned to every document and journal article (beginning September 1974 for *RIE* and August 1979 for *CIJE*). They appear in the monthly printed issues of *RIE* along with the bibliographic information. Here is an example of an ERIC document categorized with the document types NON-CLASSROOM MATERIAL (055) and CONFERENCE-PROCEEDINGS (021):*

ED 341 182 EC 300 855

Touch the Future: Discovering Abilities through Technology for Living, Learning, Working and Playing. Southeast Regional Conference (3rd, Atlanta, Georgia, April 10-12, 1991).
Georgia State Dept. of Human Resources, Atlanta. Div. of Rehabilitation Services. Apr 1991
245p.
EDRS Price - MF01/PC10 Plus Postage.
Language: English
Document Type: NON-CLASSROOM MATERIAL (055); CONFERENCE PROCEEDINGS (021)
Geographic Source: U.S.; Georgia
Journal Announcement: RIEJUN92
Target Audience: Practitioners; Administrators

. . . Originally intended for participants in a 1991 conference on assistive technology for the disabled. . . . individual sections . . . [concern] the following conference topics: blending, computer labs, family, grants and funding, interactive labs, learning, living, playing, and working. Also briefly described are posters presented at the conference, the video theater, and exhibitor displays. Among topics covered are: computer programs for the traumatically brain injured, resources for employment, impact of developmental disability on a family, developing conversational interaction with the "Unicorn Board", the Alliance in Technology Access resource network, seating and mobility, supported employment and assistive technology for the severely disabled . . . (DB)

Descriptors: Accessibility (for Disabled); *Assistive Devices (for Disabled); *Computer Oriented Programs; *Computer Uses in Education; *Disabilities; *Educational Technology; Elementary Secondary Education; Employment; Financial Support; Independent Living; Linking Agents; Play; Technological Advancement; Technology Transfer

All assigned PUBTYPEs are searchable by computer. You may want to include them in your search strategy to locate a particular kind of document, such as TEACHING GUIDES, VIEWPOINTS, RESEARCH/TECHNICAL REPORTS, or TESTS/EVALUATION INSTRUMENTS. A list of ERIC Publication/Document Types appears in Appendix C.

Year of Publication

You may want to limit your search by the publication dates of documents and articles. For example, you may know before running the search that you only

*For help in understanding RIE and CIJE records, see Appendixes K and L.

want materials from the last 5 years or 10 years. This can be included as a limiting factor in your original search strategy, or it can be used to modify a search if you find more abstracts than you need.

Free-Text Searching

Although most ERIC subject searches are based on descriptors from the *Thesaurus*, free-text searching enables you to search for unique words and phrases found in titles or abstracts. For example, you could use free-text searching to search a phrase such as FACILITATED COMMUNICATION, which would enable you to locate a paper such as this one:*

ED 331 267 EC 300 250

Facilitated Communication in Mainstream Schools.
Remington-Gurney, Jane; Crossley, Rosemary
Aug 1990
13p.; Paper presented at the International Society on Augmentative and Alternative Communication (4th, Stockholm, Sweden, August 12-16, 1990)
DRS Price - MF01/PC01 Plus Postage.
Language: English
Document Type: CONFERENCE PAPER (150); PROJECT DESCRIPTION (141); RESEARCH REPORT (143)
Geographic Source: Australia; Victoria
Journal Announcement: RIESEP91

Facilitated communication is described as a method of training communication partners or facilitators to provide physical assistance to communication aid users, to help them overcome physical and emotional problems in using their aids. In Melbourne (Victoria, Australia), the DEAL (Dignity, Education and Language) Centre has identified 96 people (ages 6-18) who became able to communicate at a previously unrealized level of communication competence with the use of facilitated communication. . . Issues in integration of these students are discussed, including teacher qualifications to meet needs of integrated students, teaching of social skills, low wages of integration aides, and low levels of training for integration aides. DEAL's attempts to increase the amount of direct liaison with schools are [also] discussed . . . (JDD)

Identifiers: *Augmentative Communication Systems; Australia (Victoria); Facilitators

Nonsubject Access

The usual approach to finding information in ERIC is by subject area, using descriptors, identifiers, and/or free-text phrases. Using ERIC's PUBTYPE codes to locate types of materials further refines the search process. ERIC can also be searched by author, institution, specific journal, language of document, geographic origin, and target audience (e.g., whether the document was intended for teachers, students, parents, etc.). For more information on these nonsubject approaches to searching ERIC, ask a librarian or call CEC-ERIC at 1-800-328-0272.

*For help in understanding RIE and CIJE records, see Appendixes K and L.

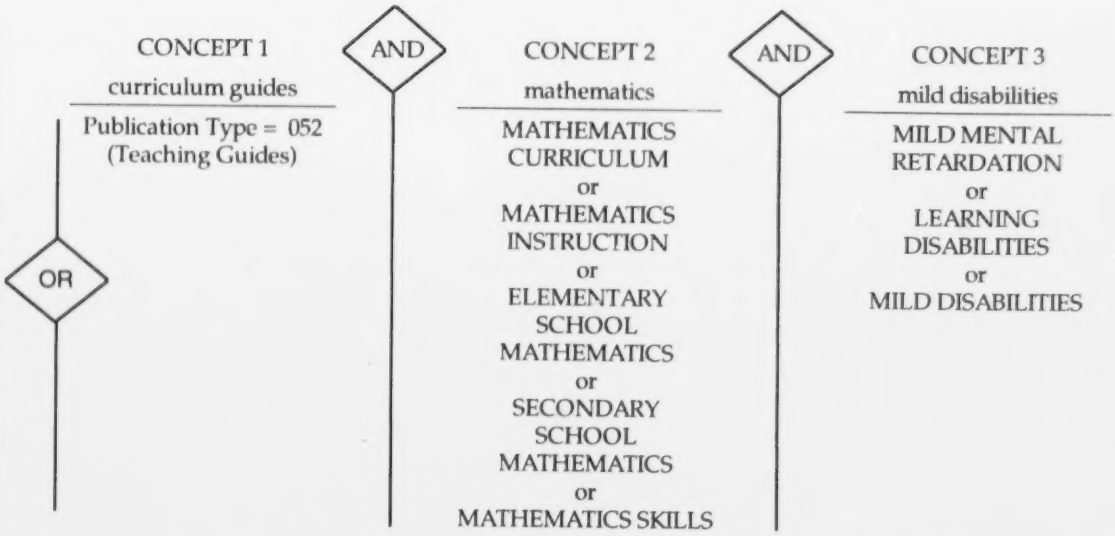
SEARCH EXAMPLE B

Search Worksheet
Example B

TOPIC

What curriculum guides have been developed for teaching mathematics to students who have mild disabilities?

CONCEPTS and ERIC DESCRIPTORS



ADDITIONAL LIMITATIONS

(e.g., publication types, educational level/age group, publication dates, etc.)

Note the use of a Publication Type code, 052 = Teaching Guides, rather than a descriptor for the concept of "curriculum guides." Use of this code will retrieve actual curriculum/teaching guides, whereas use of the descriptor CURRICULUM GUIDES could also retrieve documents and articles that are *about* curriculum guides. If you were interested in both, you could search CURRICULUM GUIDES **OR** Publication Type= 052 for that concept.

Making Connections in Mathematics.
Engelmann, Siegfried; And Others
Journal of Learning Disabilities, v24 n5 p292-303 May 1991
Available From: UMI
Language: English
Document Type: JOURNAL ARTICLE (080); POSITION PAPER (120); TEACHING GUIDE (052)
Journal Announcement: CIJDEC91
Target Audience: Practitioners

Shortcomings of mathematics curricula are described and research on the use of sameness analysis with learning-disabled and at-risk students is outlined. The paper then illustrates how to teach addition-subtraction and multiplication-division relationships and their interrelationships in the context of solving word problems in mathematics. (Author/JDD)

Descriptors: *Arithmetic; Concept Formation; Elementary Secondary Education; *High Risk Students; Integrated Activities; *Learning Disabilities; Mathematics Curriculum; *Mathematics Instruction; *Teaching Methods; Word Problems (Mathematics)

Language: English
Document Type: TEACHING GUIDE (052)
Geographic Source: U.S.; Massachusetts
Journal Announcement: RIEMAY89
Target Audience: Teachers; Practitioners

This textbook for teachers discusses methods of teaching mathematics to mildly handicapped children in the elementary school. The mathematics is restricted to topics appropriate for and attainable by varied groups of handicapped children. Decisions on what, when, and for how long to teach are more crucial than how to teach. The first two chapters discuss selected characteristics of mildly handicapped children and their meaning for learning. Chapter 3 concerns space, spatial relations, and figures, which has been found to be among the easiest areas of mathematics for mildly handicapped children. Chapter 4 concerns pre-number content, followed by chapters on whole numbers, the operations with whole numbers, fractions, measurement, problem solving related to word problems, and problem solving with divergent considerations. Chapters on assessment and on multimedia materials conclude the text. References and an index are included. (MNS)

Descriptors: Elementary Education; *Elementary School Mathematics; Learning Activities; *Mathematics Instruction; *Mild Disabilities; Student Characteristics; *Teacher Education; *Teaching Methods; Textbooks

Journal Announcement: RIEDEC90
Target Audience: Practitioners; Parents

This digest explores the concept of mentoring with gifted students and offers guidelines on its implementation. The literature on mentoring is reviewed, noting the maturing effect of mentor relationships and the particular value of mentors for disadvantaged students and for females. Among six guidelines offered are: decide what (not whom) the student needs, identify a few mentor candidates, and monitor the mentor relationship. Among questions to ask students are whether a student wants a mentor and whether the student is prepared to spend a significant amount of time with the mentor. Among questions to ask potential mentors are whether the mentor understands and likes working with children and adolescents and whether the mentor is willing to be a real role model. Includes 16 references. (DB)

Language: English
Document Type: CONFERENCE PAPER (150); PROJECT DESCRIPTION (141)
Geographic Source: U.S.; Connecticut
Journal Announcement: RIEDEC88

The paper describes a Norwich, Connecticut, program for gifted learning disabled students. After a definition of giftedness, a chart lists characteristics of gifted/learning disabled students, and a brief discussion examines application of the Enrichment Triad Model of Joseph Renzulli to this population. Other program information pieces include a list of sample performance objectives, key characteristics of action information, a comparison of various intervention strategies, the mentorship model of the Norwich secondary program, alternative sources for gathering information, a management plan for individual and small group investigations, anecdotal vignettes of program achievements, the student product assessment form, program enrichment materials, a sample activity, and the parents' and teachers' program evaluation questionnaires. (DB)

Where to Get Copies of the Materials You Find in ERIC

ERIC DOCUMENTS

Documents in the ERIC database will have an ED number (ED followed by six digits) in the first line of the citation. Many of these documents are available full text on microfiche and/or paper copy. Over 700 libraries in the United States subscribe to the ERIC microfiche collection. In these libraries you can see and often make photocopies of documents (for a minimal fee).

To locate the ERIC microfiche collection nearest you, you can call ACCESS-ERIC at 1-800-LET-ERIC (1-800-538-3742) or alternatively, you can call ERIC-CEC at 1-800-328-0272.

Copies of most ERIC documents are also available from the ERIC Document Reproduction Service (EDRS). You can use the order form shown in Appendix F to order these documents.

The ERIC citation will tell you whether the document is available from EDRS and if so, whether in microfiche only or in microfiche and paper copy. If a document in ERIC is not available from EDRS, an address for ordering copies will be given in the citation.

JOURNAL ARTICLES

Copies of journal articles can usually be obtained from one or more of the following sources:

- The periodical collection of a library.
- University Microfilms International (UMI) or other article reprint services.

- The journal publisher.
- Online *full-text* databases (e.g., Health Periodicals Index) which are available on DIALOG and other publicly available online retrieval systems.

The Periodical Collection of a Library

Often a phone call or visit to your local university, professional, or public library will suffice to locate the nearest institution that carries the journal you are seeking.

University Microfilms International (UMI)

A reprint service is available from University Microfilms International (UMI) for many of the journals cited in your search. If the article is available from UMI, it will be noted in the document citation. Pages are reproduced exactly as they appear in the journal, including advertising. Photographs do not reproduce well, but arrangements can be made for special high-quality reproduction on photographic paper. The scheduled turnaround time from UMI is 3 days, and the price includes postage via first class mail. The telephone number for UMI is 1-800-521-0600, Ext. 2533 or 2534.

A mail or facsimile order form and a price list for obtaining reprints from UMI are included in Appendix F.

The Source Journal Publisher

Appendix H is a list of special education journals. Many of them are abstracted in ERIC's *Current Index to Journals in Education*, and all of them are abstracted in CEC's database, Exceptional Child Education Resources, which is described in Chapter 6. The list includes the name and address of each publisher. You can find the Source Journal Index for the entire ERIC database in any issue of *CIJE*, available in many libraries.

6

Searching Your Topic in the Exceptional Child Education Resources Database

In addition to searching ERIC, you will want to search your topic in the Exceptional Child Education Resources (ECER) database. The ECER database is produced by The Council for Exceptional Children and contains information that is not found in ERIC.

What Is the Exceptional Child Education Resources Database?

The ECER database contains citations and abstracts of English-language print and nonprint materials dealing with the education and development of people of all ages with exceptionalities—those who have disabilities and those who are gifted.

How Is ECER Different from ERIC?

Although the ECER database includes many journal article abstracts that are duplicated in ERIC, you will need to search ECER to find the following kinds of materials:

- Books.
- Nonprint materials.

- Dissertations.
- Additional journal articles (Over 100 journals covered by ECER are not covered in ERIC.)

Where Can You Search ECER?

Manual searches of the print journal *Exceptional Child Education Resources* and computer searches of the ECER database are available in many of the libraries and information centers that offer access to ERIC.

How Can You Search ECER?

ECER can be searched in the following two ways:

- Manual searches of the print journal *Exceptional Child Education Resources.*
- Computer searches of the Exceptional Child Education Resources (ECER) database.

ECER is compatible with and complementary to ERIC. The ERIC cataloging, indexing, and abstracting rules are also used in ECER. The *Thesaurus of ERIC Descriptors* is used to index ECER, which means you can use the same descriptors for both databases. Most other ERIC search strategy techniques can also be used in ECER, such as publication types, identifiers, and free-text searching.

For more information on searching ECER, call the library of The Council for Exceptional Children at 703-264-9474.

Using the same search examples discussed previously, here are some records that you would find in ECER that you would not find in ERIC:

Book:

EC 220 684/5 EC 220 684

Mathematics for the Mildly Handicapped: A Guide to Curriculum and Instruction.
Cawley, John F. And Others 1988- 252P. Allyn and Bacon, Inc., 160 Gould St., Needham Heights, MA 02194-2310 ($25.95)
EDRS: NOT AVAILABLE
REPORT NO.: ISBN-0-203-11081-9
DOCUMENT TYPE: 052; 010

The guide to mathematics instruction for individuals with mild disabilities, including mild mental retardation, learning disabilities, and behavior disorders, provides an instructional approach that regular and special education teachers can use to stress concept and skill development. Emphasis is placed on problem-solving for mathematics and for overall development, and on concepts over skills. An introductory chapter discusses planning for the mildly handicapped, classification (use of labels and individuality), developmental characteristics (growth patterns and comparisons among children with handicaps), and their implications. Chapter 2 addresses general issues in learning and instruction, including the interactive unit, learning processes, cognitive development, affective considerations, alternative representations, and learning and achievement. Subsequent chapters focus on specific aspects of mathematics instruction for this population: prenumber content; whole numbers; the arithmetic of whole numbers; fractions; measurement; problem solving (word problems and divergent considerations); assessment techniques (diagnostic, placement, achievement, and comprehensive); and the use of multimedia materials and equipment. A bibliography of over 80 citations is included. (MSE)

Descriptors: *Mild Disabilities; *Mild Mental Retardation; Learning Disabilities; *Behavior Disorders; *Mathematics Instruction; Classification; Individual Development; *Learning Processes; Cognitive Development; Affective Behavior; Spatial Ability; Geometry; Microcomputers; Computer Assisted Instruction; Whole Numbers; Fractions; *Measurement; Problem Solving; Divergent Thinking; Word Problems (Mathematics); *Mathematics Tests; Diagnostic Tests; Student Placement Tests; *Educational Media; Multimedia Instruction; Special Education; Elementary Secondary Education?

Dissertation:

EC 210 730/5 EC 210 730

A Comparison Study of Prewriting Strategies for Secondary Learning Disabled and Non-Learning Disabled Students.
Turner, Margaret Nan
1987- 114P.
NOTE: West Virginia University. UMI, P.O. Box 1346, Ann Arbor, MI 48106 Order No. DA8810728.

EDRS: NOT AVAILABLE
DOCUMENT TYPE: 041; 143

No Abstract.

Descriptors: *Learning Disabilities; *Writing (Composition); Secondary Education; *Prewriting; *Writing Instruction; *Computer Assisted Instruction; *Writing Apprehension; Elementary Secondary Education

There are many other databases that contain information related to children with exceptional needs. Nine of them are described briefly in Appendix E.

7

What Can ERIC Clearinghouses Do for You?

The 16 ERIC clearinghouses perform the following three major tasks:

- Acquiring, selecting, abstracting and indexing professional literature for the ERIC database.
- Developing new publications including digests, research summaries, bibliographies, and books that summarize or synthesize information on current and emerging topics.
- Responding to information requests.

The ERIC clearinghouse that deals with the education of students who have disabilities and/or are gifted is located at The Council for Exceptional Children (CEC). The ERIC Clearinghouse on Disabilities and Gifted Education (ERIC-CEC) gathers and disseminates educational information on all disabilities and on giftedness, across all age levels.

When you have a special education question, you may want to contact ERIC-CEC for

- A list of clearinghouse publications.
- A brief ERIC-CEC publication that responds to your question.
- A custom computer search.
- Help in planning your ERIC search.
- Referral to other sources of information on your topic.

Also check the complete list of ERIC clearinghouses given in Appendix G for others that may have information on your topic.

8

How Can You Contribute to the ERIC Database?

If you have recently written a paper related to the education of gifted students or of people with disabilities, your work can be made permanently available and accessible through ERIC. ERIC-CEC is interested in receiving all types of substantive documents, including research reports, program descriptions or evaluations, reviews of literature, curriculum guides, and conference papers. Documents submitted to ERIC are evaluated according to the following criteria:

- Substantive information (a minimum length of 5 pages, and the subject must be treated appropriately in terms of depth, specificity, and recency of information).
- Clear writing style.
- Sound methodology (for research).
- Content generalizability to other settings or situations.
- Adequate references.

For further information on submitting your paper to ERIC, call ERIC-CEC at 1-800-328-0272 and ask for the acquisitions coordinator.

List of Special Education Related Databases

Clearinghouse Views

A Tour of Related Databases

Most students searching for information on regular or special education have probably had some experience with the ERIC (Educational Resources Information Center) database. There are also hundreds of other online databases, many of which may be of interest to students, practitioners, parents, and researchers needing information on topics related to children with exceptional needs.

Nine databases are listed here, including brief descriptions of coverage, the database producers, and availability through online vendors.

To search these databases, contact your local special education resource center, public library, or university library. For more information on the ERIC or ECER (Exceptional Child Education Resources) databases, contact CEC/ERIC, 1920 Association Drive, Reston, VA 22091-1589, or call 703/264-9474. To learn more about online searching or available databases, contact the following online vendors:

DIALOG Information Services, Inc.
3460 Hillview Avenue
Palo Alto, CA 94304
1-800-334-2564

BRS Information Technologies
8000 Westpark Drive
McLean, VA 22102
1-800-289-4277

Educational Resources Information Center (ERIC)

Currently the largest education database in the world, ERIC contains more than 700,000 citations covering research documents, journal articles, technical reports, program descriptions and evaluations, and curricular materials in the field of education.

Database Producer: *U.S. Department of Education, Office of Educational Research and Improvement, Washington, DC*
Availability Online: *DIALOG, BRS*

Exceptional Child Education Resources (ECER)

ECER is CEC's comprehensive database covering published professional literature on the education and development of people of all ages with exceptionalities—those who have disabilities and those who are gifted. Coverage also includes chronic illnesses; special health problems; child abuse and neglect; and children at risk due to disabilities, physical or psychological problems, limited English proficiency, or family or environmental factors. ECER is ERIC compatible and provides bibliographic citations and abstracts of books, journal articles, and selected nonprint materials. Dissertations related to special education are cited and indexed without abstracts.

Database Producer: *The Council for Exceptional Children, Reston, VA*
Availability Online: *DIALOG, BRS*

ABLEDATA

ABLEDATA contains detailed information on rehabilitation products and technical aids for people with disabilities, including personal-care, therapeutic, sensory, educational, vocational, and transportation aids.

Database Producer: *Adaptive Equipment Center, Newington Children's Hospital, Newington, CT*
Availability Online: *BRS*

REHABDATA

REHABDATA covers research and literature relevant to the rehabilitation of persons with physical or mental disabilities, including topics such as disability management, functional evaluation, independent living, placement, and transportation. Sources covered include technical research reports, consumer-oriented commercial publications, monographs, conference proceedings, and professional journals.

Database Producer: *National Rehabilitation Information Center, Silver Spring, MD*
Availability Online: *BRS*

PsycINFO (formerly Psychological Abstracts)

PsycINFO covers worldwide literature in psychology and related disciplines such as psychiatry, sociology, anthropology, education, linguistics, and pharmacology. Journal articles, technical reports, monographic series, and dissertations are included.

Database Producer: *American Psychological Association, Washington, DC*
Availability Online: *DIALOG, BRS*

MEDLINE

MEDLINE is the most comprehensive online resource for national and international medical journal literature. It covers all aspects of biomedicine, including the allied health fields, the biological and physical sciences, veterinary medicine, and humanities and information science as they relate to medicine and health care.

Database Producer: *National Library of Medicine, Bethesda MD*
Availability Online: *DIALOG, BRS*

Wilson Education Index

Wilson Education Index covers over 350 of the key English-language periodicals in all areas of education, including preschool, elementary, secondary, higher, adult, and vocational education; counseling; educational administration and supervision; teaching methods and curricula; psychology; special education and rehabilitation; and other topics of current interest.

Database Producer: *The H. W. Wilson Company, Bronx, NY*
Availability Online: *BRS*

British Education Index

British Education Index covers journal articles and thesis literature ranging from preschool to adult and higher education. The following are some of the topics covered: cognitive development, computer-assisted learning, curriculum, educational policy, special educational needs, and teacher education.

Database Producer: *British Education Index, Leeds, UK*
Availability Online: *DIALOG*

Birth Defects Encyclopedia Online

Birth Defects Encyclopedia Online contains more than 2,000 articles on specific birth defect conditions and complex syndromes.

Database Producer: *Center for Birth Defects Information Services, Inc., Dover, MA*
Availability Online: *BRS*

Reprinted from *TEACHING Exceptional Children*, Vol. 25, No. 1, 1992.

- Specify exact mail classification desired

DEPOSIT ACCOUNTS

Customers who have a continuing need for ERIC Documents may open a Deposit Account by depositing a minimum of $300.00 (Domestic Customers); $ 500.00 (International Customers). Once an account is opened, ERIC Documents will be sent upon request, and the account charged for the actual cost and postage. A statement of the account will be furnished with each order.

STANDING ORDER SUBSCRIPTION ACCOUNTS

Subscription Orders for documents in the monthly issues of Resources in Education (RIE) are available on microfiche from EDRS. The microfiche are furnished on diazo film and without protective envelopes at $0.120 per microfiche. If you prefer silver halide film, the cost is $0.249 per microfiche, and each microfiche is inserted into an acid-free protective envelope. Prices are effective January 1, 1994 and are subject to change without notice. Shipping charges not included. A Standing Order Account may be opened by depositing $2,400.00 or submitting an executed purchase order. All orders placed from outside the domestic U.S. must be prepaid. The cost of each issue and shipping will be charged against the account. A monthly statement of the account will be furnished.

BACK COLLECTIONS

Back collections of documents in all issues of RIE since 1966 are available on microfiche at a unit price of $0.146 per microfiche. The collections are furnished on diazo film without envelopes. Prices are valid through December 31, 1994, and do not include shipping charges and applicable taxes. For pricing information, write or call toll-free 1-800-443-ERIC.

GENERAL INFORMATION

1. PAPER COPY (PC)

   A Paper Copy is a xerographic reproduction, on paper, from microfiche of the original document. Each paper copy has a Vellum Bristol cover to identify and protect the document.

2. PAYMENT

   The prices set forth herein do not include any sales, use, excise, or similar taxes that may apply to the sale of microfiche or paper copy to the customer. The cost of such taxes, if any, shall be borne by the customer.

   Payment terms are **NET THIRTY (30) DAYS** by check or money order payable to CBIS in U.S. Dollars drawn on a U.S. Bank.

3. REPRODUCTION

   Permission to further reproduce a copyrighted document provided hereunder must be obtained from the copyright holder, usually noted on the front or back of the title page of the copyrighted document.

4. CLAIMS POLICY

   CBIS Federal will replace products returned within 6 months of delivery due to reproduction defects or incompleteness caused by EDRS.

List of ERIC Clearinghouses

ERIC CLEARINGHOUSES

The ERIC clearinghouses have responsibility within the network for acquiring the significant educational literature within their particular areas, selecting the highest quality and most relevant material, processing (i.e., cataloging, indexing, abstracting) the selected items for input to the database, and also for providing information analysis products and various user services based on the the database.

The ERIC Clearinghouse on Disabilities and Gifted Education, located at The Council for Exceptional Children, has the primary responsibility for collecting the literature in this area; however, if your topic overlaps the scope of other clearinghouses, you may want to contact them for further information.

Special Education Journals

CEC regularly receives more than 200 journals that are scanned for material concerning exceptional children. Articles selected on the basis of established criteria are abstracted and indexed for *EXCEPTIONAL CHILD EDUCATION RESOURCES* (ECER). Some of these articles are indexed and submitted for announcement in *CURRENT INDEX TO JOURNALS IN EDUCATION* (CIJE), an Educational Resources Information Center (ERIC) publication. The following list is of journals from which articles were abstracted (current February 1994).

#*Academic Therapy, see Intervention in School and Clinic

*ACEHI Journal (Journal of the Association of Canadian Educators of the Hearing Impaired), University of Alberta, Dept. of Educ. Psychology, 6-102 Education North, Edmonton, Alberta, T6G 2G5 Canada

Online Vendors

MAJOR VENDORS OF ERIC ONLINE SERVICES AND CD-ROM PRODUCTS (Addresses and Telephone Numbers)

The ERIC database is one of the most widely used bibliographic databases in the world. Users from 90 different countries perform nearly half a million searches annually of the database.

The ERIC database currently can be searched via seven major online and CD-ROM vendors (listed below). Those wishing to search ERIC online need a computer terminal that can link by telephone to the vendor's computer and a subscription with one or more vendors.

In addition, the *Directory of ERIC Information Service Providers* lists the addresses, telephone numbers, and ERIC collection status for more than 900 organizations that perform searches for ERIC users. To order a copy of the *Directory*, call any ERIC component.

Career Planning for Women.

Central Univ., Chicago, IL.

Spons Agency — Office of Educational Research and Improvement (ED), Washington, DC.

Report No. — CU-2081-S

Pub Date — May 89

Contract — NIE-C-83-0001

Note — 12p.; Paper presented at the National Conference on Career Education (3rd, Chicago, IL, May 15-17, 1989).

Available from—Campus Bookstore, 123 College Ave., Chicago, IL 60690 ($3.25).

Language—English, French

Pub Type—Speeches/Meeting Papers (150)

EDRS Price—MF01/PC06 Plus Postage.

Descriptors — Career Guidance,* Career Planning, Careers, *Demand Occupations, *Employed Women, *Employment Opportunities, Females, Labor Force, Labor Market, *Labor Needs, Occupational Aspiration, Occupations

Identifiers — Consortium of States, *National Occupational Competency Testing Institute

Women's opportunities for employment will be directly related to their level of skill and experience and also to the labor market demands through the remainder of the decade. The number of workers needed for all major occupational categories is expected to increase by about one-fifth between 1980 and 1990, but the growth rate will vary by occupational group. Professional and technical workers are expected to have the highest predicted rate (39 percent), followed by service workers (35 percent), clerical workers (26 percent), sales workers (24 percent), craft workers and supervisors (20 percent), managers and administrators (15 percent), and operatives (11 percent). This publication contains a brief discussion and employment information concerning occupations for professional and technical workers, managers and administrators, skilled trades, sales workers, clerical workers, and service workers. In order for women to take advantage of increased labor market demands, employer attitudes toward working women need to change and women must: (1) receive better career planning and counseling, (2) change their career aspirations, and (3) fully utilize the sources of legal protection and assistance that are available to them. (SB)

Clearinghouse Accession Number.

Sponsoring Agency—agency responsible for initiating, funding, and managing the research project.

Report Number—assigned by originator.

Descriptive Note (pagination first)

Descriptors—subject terms found in the Thesaurus of ERIC Descriptors that characterize substantive content. Only the major terms (preceded by an asterisk) are printed in the Subject Index.

Major and Minor Identifiers (major identifiers are starred)

Identifiers: *Conversation; *Memory Span; Memory Behavior

Annotation

Examines changes in participants' memories for natural conversations over a one month period. Reports that after one month, participants recalled less content and reported more descriptive statements, made more inferences, and were less accurate than when they had recalled the conversations immediately. ERIC NETWORKER

ERIC Clearinghouse on Information Resources • Syracuse University • Syracuse, New York 13244-2340
Phone: (315) 443-3640 • Fax: (315) 443-5448 • Internet: ERIC@SUVM.ACS.SYR.EDU

Number 3.0 **September 1992**

ACCESSING THE ERIC DATABASE THROUGH CARL

Internet users can search the entire ERIC database (1966 to present) and the ERIC Thesaurus terms through the CARL (Colorado Alliance of Research Libraries) system. Instructions follow:

1. **Telnet pac.carl.org** or **telnet 192.54.81.128**

2. Select the line number for your terminal type.

3. Press **RETURN** to enter the Public Access Catalog, and **RETURN** again after the welcome screen.

4. You will see a menu of databases. Select Current Article Indexes and Access by typing the numeral (**2** as of this writing).

5. Select ERIC by typing the numeral (**52** as of this writing).

6. Choose which subfile to search by typing the numeral. Choices as of this writing include: ERIC Thesaurus (**95**), ERIC RIE (**96**), ERIC CIJE (**97**), and ERIC Combined--RIE and CIJE (**98**).

7. Follow screen instructions to search.

TIPS:

-In the RIE, CIJE, and Combined files, search options include NAME search, WORD search, TITLE browse, NAME browse, SUBJECT browse, and SUBJECT WORD search. Read the introduction to learn what is covered by each field.

-Your final set must be under 300 records for the system to sort (i.e. display the most recent publications first). Whenever your result is over 300, the system prompts you to refine the search with extra terms.

-The system will prompt you to refine any search result by adding more terms or limiting by ERIC Context. (ERIC Context refers to Education Level, Age Level, Target Audience, and Publication Type.)

-The Quick Search option, which can be entered from any screen, allows faster searching from any screen. See the instructions given under QS in the menus.

8. To leave the system, type **//EXIT** from any screen.

This publication was prepared with funding from the Office of Educational Research and Improvement, U.S. Department of Education, under contract no. RI88062008. The opinions expressed in this report do not necessarily reflect the positions or policies of OERI or ED.

Number 1.1 **September 1992**

ACCESSING THE ERIC DATABASE THROUGH SUINFO

Internet users can access the latest five years of the ERIC Database through SUINFO, a campus information system at Syracuse University that uses the SPIRES/PRISM interface. Instructions follow:

1. **Telnet acsnet.syr.edu** (or **Telnet 128.230.1.21**)
2. At the > prompt, type **SUINFO**.
3. At the ENTER TERMINAL TYPE prompt, type **VT100**.
4. Bypass the USERID prompt (with the tab key).
5. Bypass the PASSWORD prompt (with the tab key).
6. At the COMMAND prompt, type **SUINFO**.
7. After some messages and a pause, you will see a Welcome to SUINFO screen. Read the messages and type **Y** to continue. (Note: If you do not get the welcome screen, try typing SUINFO again and hit return.)
8. After a pause, you will see a Welcome to PRISM screen, followed by the main menu. Choose "General Interest" from the main menu by typing **1**.
9. You will see a File Selection menu. Choose ERIC by typing the numeral (**14** as of this writing).
10. Follow screen instructions to search the database.

TIPS:
- If "more" or "holding" appears at the bottom right corner of the screen, press HOME, ENTER, or some other key on your keyboard to advance the screen.
- To begin a search or start a new search in ERIC, type **FIND**.
- You will have to type out command words (such as **FIND, SELECT, DIS FULL**) rather than use the function keys.

11. To end the SUINFO session, type **LOGOFF**.

Number 2.1 **September 1992**

ACCESSING ERIC DIGESTS THROUGH THE UNC BULLETIN BOARD

A full-text file of over 850 ERIC Digests is available to Internet users through the Extended Bulletin Board of the Office for Information Technology, University of North Carolina at Chapel Hill. Instructions follow.

ERIC Digests are short reports on topics of current interest in education. The 16 ERIC clearinghouses produce about 150 new digests every year. For information about the ERIC system or Digests, contact ACCESS ERIC: 1-800-LET-ERIC.

1. **Telnet bbs.oit.unc.edu** (or **Telnet 152.2.22.80**)
2. At the login prompt, type **BBS**.
3. Enter first and last name, as directed. (Note: Remember how you enter your name for future sessions.) When prompted, type **Y** (yes) to continue.
4. Enter a password of your choice. (Remember it!)
5. At the main menu, choose Simple WAIS Client (4 as of this writing).
6. Move through the list to ERIC Digests (107 or 108 as of this writing).
7. Hit the RETURN key to select the file.
8. Type one or more keywords, then hit the RETURN key to start the search.
9. Results will be displayed by title in a ranked order. (Ranking is based on occurrences of the keyword(s).)
10. Highlight a title and hit the RETURN key to see the full text.

TIPS:
- Type **?** to see a list of all commands.
- Use **CTRL-V** to move ahead by screen when viewing the title list.
- Use the arrow keys to move ahead by line.

11. Follow screen instructions for choosing other digests, starting a new search, etc. (Note: If you want to download the digest, use the screen or session capture capabilities of your communications software.)
12. To quit SIMPLE WAIS, type **Q** (quit).
13. To leave the Bulletin Board System, choose **8** (Goodbye) from the main menu.

INTERNET ACCESS POINTS TO ERIC

The following systems currently provide unrestricted Internet access to ERIC resources. For general information about ERIC, contact ACCESS ERIC, 1-800-LET-ERIC or ACCERIC@GWUVM.GWU.EDU.

I. **Syracuse University** offers the latest five years of the ERIC database on the SUINFO system. Searchable fields include author, title, descriptor word, descriptor phrase, and abstract.

1. Telnet **acsnet.syr.edu** (or **128.230.1.21**)
2. At > prompt, type **SUINFO**.
3. At ENTER TERMINAL TYPE prompt, type **VT100**.
4. Bypass the USERID and PASSWORD prompts with the tab key.
5. At the COMMAND prompt, type **SUINFO**.
6. When prompted, type **Y** (yes) to continue.
7. Find ERIC through the menus (first type **1** for General Interest files, then the number corresponding to ERIC), or type **ERIC** to enter directly.
8. Follow screen instructions to search. (If function keys don't work, type in corresponding commands.)
9. To end the session, type **LOGOFF**.

TIP: Whenever MORE or HOLDING appears in the lower right corner of the screen, hit the HOME or ENTER key to advance.

II. **Auburn University Libraries** offers the complete ERIC database, 1966 to the latest quarter. Searchable fields include title, author, subject heading (descriptor), and keyword. (Note: requires TN3270.)

1. TN3270 **auducacd.duc.auburn.edu** (or **131.204.2.13**).
2. At the opening screen, tab to APPLICATION, and enter **01**.
3. At the main menu, type **ERIC**.
4. Follow screen instructions to search.
5. To end the session, type **STOP**.

TIP: The keyword search field allows use of Boolean operators, truncation, nesting, and other special search features. Type **EXP K** for a complete explanation.

III. **The University of Saskatchewan Library System** offers the ERIC database from 1983 to the present. Searchable fields include author, title, descriptor, identifier, publication year, ERIC accession number, and journal title.

1. Telnet **sklib.usask.ca** (or **128.233.1.20**)
2. At USERNAME prompt, enter **SONIA**.
3. At main menu, select **9**, "CIJE plus RIE: 1983 to Present."
4. Type **HELP** to see a summary of search and display commands, field prefixes, and Boolean operators. (Sample search statement to find documents with the descriptor television: **f d=television**.)
5. To end the session, type **Q** (quit).

TIP: Type **BEGINNER** to see a system tutorial.

IV. **The University of North Carolina, Chapel Hill**, through its **laUNChpad** system, hosts a searchable, full-text file of over 850 ERIC Digests. (ERIC Digests are short reports on current education topics written by each of the 16 ERIC Clearinghouses.)

1. Telnet **bbs.oit.unc.edu** (or **152.2.22.80**)
2. At the login prompt, type **LAUNCH**.
3. Enter your first and last name as directed. (Remember how you enter your name for future sessions.)
4. Enter a password of your choice (and remember it).
5. At the main menu, select **4**, "Topical Document Search (WAIS)."
6. Move through the list to ERIC Digests (138 or 139 as of this writing). Hit RETURN to select the file.
7. Type one or more keywords and hit RETURN to start the search. Results will be displayed by title in a ranked order based on occurrences of the keyword.
8. Highlight a title and hit RETURN to see the full text.
9. To end the WAIS session, type **Q** (quit). To exit laUNChpad, type Q again.

TIP: Type **?** to see a list of all commands.

This *ERIC Networker* was prepared with the assistance of Karin Peterson Hsiao, ERIC Clearinghouse for Junior Colleges, University of California at Los Angeles; EEH3USC@MVS.OAC.UCLA.EDU.
